

## FOSTER-ROAD

### The Support Action for the European Technology Platform for Road Transport Research

#### MOTIVATION AND OBJECTIVES

- FOSTER-Road supports ERTRAC, the European Road Transport Research Advisory Council, to strengthen the research and innovation strategies of road transport industries and policies in Europe.
- It brings together experts from all relevant stakeholder groups to monitor projects, develop roadmaps, and support their implementation.

#### PROJECT PLAN, MILESTONES AND DELIVERABLES

#### ACHIEVEMENTS

ERTRAC strives to identify the paths towards a 50% more efficient road transport system until 2050. It strengthens the European Research Area for transport research and contributes to the global technological leadership of the European automotive industry.

RTD roadmaps published since 2013:

- Land Use and Transport Interactions
- Transport Infrastructure Innovation
- Energy Carriers for Powertrains
- Urban Freight Research
- Automated Driving
